Senior Product Leader | Digital Product Strategy | Healthcare, Telehealth and Patient Access

SUMMARY

Senior digital product leader with 20 years of experience building and scaling consumer-facing products in healthcare, SaaS, fitness, and media. At Planned Parenthood, grew the national online appointment scheduling platform to more than 2 million bookings per year across Epic, NextGen, and Athena, launched the first nationwide telehealth program in the first weeks of COVID-19, and led responsible AI adoption with clear guardrails. Manages program, design, and research teams, leads cross-functional groups of up to 30, and stays hands-on from discovery and roadmap through launch and measurement.

EXPERIENCE

Planned Parenthood Federation of America | New York, NY | Sep 2018 – Aug 2025

Senior Director, Digital Product | Sep 2023 – Aug 2025

- Set product vision and strategy for a national digital experience in English and Spanish serving millions of patients and users each year across in-clinic and telehealth care.
- Scaled online appointment booking from about 1M to 2M+ appointments per year across Epic, NextGen, and Athena EHR integrations, lifting conversion 20% overall and 40% for urgent care.
- Led research, design, development, and cross-vendor implementation of the user experience for Planned Parenthood Virtual Health Centers, launched in 2024 with 31 virtual centers across 24 states and now a key source of patient acquisition and revenue for affiliates; recognized with a 2024 Anthem Award (Gold).
- Managed 5 reports (associate directors, senior product designers, product designers, and UX researchers); led hiring, salary negotiation, contractor and agency engagement, contractor-to-full-time conversions, and performance management.
- Led cross-functional strategy for teams of up to 30 across product, engineering, analytics, operations, clinical, and IT partners.
- Guided the team's adoption of AI in internal workflows and set guardrails for using AI in data analysis and strategy synthesis.
- Contributed to the strategy for integrating Roo, an AI chatbot that lets teens ask sexual health questions anonymously, into Planned Parenthood's digital experience.
- Established an organization-wide user insights library (personas, behavioral snapshots, user journeys) across 4 user segments and led its move from a static intranet page to a shared ChatGPT agent anyone could query, driving new requests from product, engineering, and operations teams to partner on roadmap decisions and research.

Director, Digital Product | Mar 2022 – Sep 2023

- Led cross-functional program, product, and operations teams to expand telehealth nationwide through a phased regional rollout across 40+ independent affiliates, positioning it as a permanent care channel; telehealth appointment volume grew 15x and conversion rose 65% (2020–2025).
- Built a data-driven, agile product culture focused on equity, user needs, and measurable impact.
- Managed 4 reports (associate directors, program managers, project managers, and help desk specialists); engaged contractors, converted contractors to full-time roles, and opened and posted new positions.

Associate Director, Digital Product – Online Appointment Scheduling | Oct 2019 – Mar 2022

- Directed the national online scheduling platform for 40+ affiliated health care operators and 500+ health centers, aligning technology and operations.
- Conceived and launched the first nationwide telehealth program in the first weeks of the COVID-19 pandemic, accelerating plans 10x to ship iterative telehealth scheduling while health centers were closed.
- Led cross-functional teams, third-party agencies, and vendors to ship single sign-on, Search by Earliest Available, SMS appointment reminders, and No Surprises Act compliance.
- Implemented metrics and analytics frameworks that improved operational efficiency and user outcomes.
- Managed 2 project managers; engaged contractors, converted contractors to full-time roles, and opened and posted new positions.

Project Manager, Digital Product – Online Appointment Scheduling | Sep 2018 – Oct 2019

- Defined the online scheduling strategy across 40+ independent affiliates and 500+ health centers, laying the foundation for the organization's digital access strategy.
- Managed vendor partnerships, enterprise integrations, RFPs, and budgets aligned to patient access goals.
- Introduced success metrics that drove conversion optimization and operational efficiency.

SoulCycle | New York, NY | Sep 2015 – Apr 2016
Senior Product Manager, Digital | Sep 2015 – Apr 2016

- Reported to the CTO and led adoption of Agile, iterative development; launched instructor availability and scheduling tools that increased class fill rates 2–3x for new instructors.

Animoto | New York, NY | Mar 2014 – May 2018
Technical Product Manager, Marketing and Growth; Product Manager, Core Experience | Mar 2014 – May 2018

- Grew Animoto to 300K+ monthly active users; owned the core video creation product (500K+ videos per month) and roadmaps for CMS, technical SEO, accounts, and payments.

The Orchard (Sony Music) | New York, NY | Apr 2006 – Mar 2014
Product Manager, Film, TV and Video Network; Manager, Operations | Apr 2006 – Mar 2014

- Product owner for B2B digital distribution and asset management platforms; wrote system specifications and SLAs; increased distribution throughput 10x.

PROJECTS

AI Job-Search Agent (personal project) | Stony Brook, NY | Sep 2026 – Present

- Designed and direct an AI agent workflow (Claude) that sources openings across 100+ employer job boards, screens them against my experience, drafts tailored resumes and cover letters, and tracks a 175+ role pipeline on a live dashboard.
- Set human-in-the-loop guardrails: every claim is checked against a verified profile, and nothing is sent or submitted without my review and approval.

Independent UX Consulting (self-directed study)

- Providing independent UX consulting for bespoke e-commerce operations and small businesses using Claude Cowork and Figma Make - a self-directed study in AI-assisted UX & strategy.
